

March 13, 1984

LB 867

PRESIDENT: Very well. Senator Morehead. Are we dealing with individual amendments or committee amendments?

SENATOR MOREHEAD: This is an individual...it's a committee amendment proposed by the introducers but adopted by the committee. Mr. President and to the Clerk, this isn't an Appropriations bill even though....

CLERK: Senator, I stand corrected, you are absolutely correct.

SENATOR MOREHEAD: Right. Thank you, that's only for the record. I am asking the membership of the body to adopt an amendment which is found on page 1382 of the Journal. This amendment adjusts the dollar amount of the projected need for the completion of the Animal Science project. It further defines what fully constitutes construction costs and additionally this amendment provides that if during the bidding process construction cost can be reduced, the difference will be restored to the State Building Fund. The construction cost as proposed in this amendment for this program would be \$15,028,150, with a total project cost limit of \$19,161,750 which is, in fact, \$420,000 below the original projection. I would ask for the adoption of this amendment. Thank you.

PRESIDENT: Is there discussion on the amendment? If not, all those in favor vote aye, opposed vote no on the amendment as explained by Senator Morehead. Have you all voted? The Clerk will record the vote.

CLERK: 28 ayes, 0 nays on adoption of the committee amendments, Mr. President.

PRESIDENT: The amendment is adopted.

CLERK: Mr. President, Senator Warner would move to amend the bill.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, this amendment only adjusts
